

WIL CAPACITY BUILDING:

THEME: PLANNING AND IMPLEMENTING WIL

Based on the need articulated by the SASCE stakeholder community on Work Integrated Learning (WIL) there has been an indication that capacity building regarding management of WIL is an urgent requirement.

To this effect SASCE has secured the services of two experts in the field of WIL to facilitate a series of one day workshops under the theme “Planning and Implementing WIL” facilitated on our behalf by experienced WIL Directors from University of Waterloo, a global Leader in WIL.

The expected outcome is a knowledge and skill for each participant to develop a relevant and effective WIL strategy for the sending institution.

The workshops are scheduled as follows
